DEFINITION OF PRICING STRUCTURES

For the purpose of this bid the following explanations are provided:

1. **Firm prices**

1.1 Firm prices are prices which are only subject to **adjustments in accordance with the actual increase or decrease** resulting from the changes, imposition or abolition of customs or excise duty and any other duty, levy, or tax which is binding upon the contractor in terms of a law or regulation and has a demonstrable influence on the prices of any supplies, for the execution of the contract.

The following two pricing structures will also be considered as firm prices:

1.2 Firm prices **linked to fixed period adjustments**, i.e. two-tier prices (firm 1st and firm 2nd year prices), only subject to the variables indicated in the above paragraph.

1.3 Firm prices **subject to rate of exchange fluctuations** - claim shall be made within 60 days of delivery. (It is compulsory that the table below be completed for prices subject to rate of exchange variations). The Bill of entry, confirmation of the amount remitted abroad, and supplier invoice must accompany all claims.

Note: Any advantage due to a more profitable exchange rate must be passed on to the province.

Please furnish full particulars of your financial institution, state the currencies used in the conversion of the prices of the items to South African currency, which portion of the price is subject to rate of exchange variations and the amounts remitted abroad.

2. **Non-firm prices**

Non-firm prices are either prices **linked to proven adjustments** or prices **linked to escalation formula adjustments.**

2.1 It is compulsory that the variable factors and their weights be indicated where prices are linked to **proven adjustments**.

The table below serves only as a guide and bidders must include all other information deemed necessary.

2.2 In cases where prices are subject to the **escalation formula**, the next table **must** be completed.

IN THIS CATEGORY PRICE ESCALATIONS WILL ONLY BE CONSIDERED IN TERMS OF THE FOLLOWING:

$$Pa = (1-V)Pt\left(D1\frac{R1t}{R1o} + D2\frac{R2t}{R2o} + D3\frac{R3t}{R3o} + ...Dn\frac{Rnt}{Rno}\right) + VPt$$

Where:

Pa = The new escalated price to be calculated.

(1-V) Pt = 85% of the original bid price. **Note that Pt must always be the original bid price and not an escalated price.**

D1, D2 = Each factor of the bid price e.g. labour, transport, clothing, footwear, etc. The total of the various factors D1, D2 etc. must add up to 100%.

R1t, R2t = Index figure obtained from new index (depends on the number of factors used).

R1o, R2o = Index figure at time of bidding.

VPt = 15% of the original bid price. This portion of the bid price remains firm i.e. it is not subject to any price escalations.

THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME

INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade, Industry and Competition (DTIC) is charged with the responsibility of administering the programme.

1. PILLARS OF THE PROGRAMME

1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US $10 million will have a NIP obligation. This threshold of US $10 million can be reached as follows:

(i) Any single contract with imported content exceeding US $10 million;

or

(ii) Multiple contracts for the same goods, works or services each with imported content exceeding US $3 million awarded to one seller over a 2-year period which in total exceeds US $10 million;

or

(iii) A contract with a renewable clause, where should the option be exercised the total value of the imported content will exceed US $10 million.

or

(iv) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US $3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US $10 million.

Contractor to initial.....

1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30% of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a *pro-rata* basis.

1.3 To satisfy the NIP obligation, the DTIC would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R & D) with partners or suppliers.

1.4 A period of seven years has been identified as the time frame in which to discharge the obligation.

2. REQUIREMENTS OF THE DEPARTMENT OF TRADE, INDUSTRY AND COMPETITION

2.1 In order to ensure effective implementation of the programme, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of **R10 million** (ten million Rands), submit details of such a contract to the DTIC for reporting purposes.

2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts of the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1. (b) to 1.1. (d) above.
