Step 3 - Pre-qualification criteria

- refer to the attached technical evaluation criteria

CONTRACTUAL OBLIGATIONS (Non-weighted criterion)

In terms of the PPPFA, the application of objective criteria may be a valid and justifiable reason why a tender is not awarded to the highest scoring / highest ranked supplier, after application of the 80:20 preference points system. Objective criteria will generally be applied after evaluation and are generally the criteria / conditions specifically linked to contract award (viz., legal compliance, adherence to contract terms and conditions. The requirements for the objective criteria do not form part of the above Part A and Part B; however, they will be required from the recommended tenderer/s to submit them before the contract award.

STEP 4: OBJECTIVE CRITERIA

Price and Preference Analysis

- 80% Price
- 20% BBBEE

Price Evaluation (80 points)

Where

Ps	=	Points scored for comparative price of tender under consideration
Pt	=	Comparative price of tender under consideration
Pmin	=	Comparative price of lowest acceptable tender

B-BBEE Evaluation (20 Points)

Tenderers are required to submit a valid B-BBEE Status Level Verification Certificates together with their tenders to substantiate the B-BBEE claims.

Tenderers, who do not submit B-BBEE Status Level Verification Certificate or non-compliant contributors to B-BBEE will not qualify for preference points, however will not be disqualified from the tender process. Such tenderer will score out of 80 points for price and 0 points out of 20 for B-BBEE.

Points awarded to a tenderer for attaining the B-BBEE Status Level of contribution in accordance with the table below:

CONTRACTUAL OBLIGATIONS (Non-weighted criterion)

In terms of the PPPFA, the application of objective criteria may be a valid and justifiable reason why a tender is not awarded to the highest scoring / highest ranked supplier, after application of the 80:20 preference points system. The requirements for the objective criteria do not form part of the above Part A and Part B; however, they will be required from the recommended tenderer/s to submit them before the contract award.

Financial Evaluation

An analysis of the tenderers financial statements will be conducted for the purpose
Of establishing the tenderers financial viability and ability to meet all its contractual obligations for the duration of the contract, should the tenderer be awarded the contract

Please note: Eskom will require substantiating proof of importation at the time of invoicing.

Where the supplier, previously imported goods into stock for delivery to various customers, including Eskom, the price quoted must be in South African Rand. In such cases, Eskom will not undertake any foreign exchange commitment or arrange forward cover.

Take note of the following:

Service-related payment:

When specialist skills are required in South Africa, the local supplier will source the appropriate talent from their network of specialist companies overseas. The specialist is then brought into the country (South Africa) on one of two possible methodologies.

1) **Secondment**

In this approach, the foreign specialist retains their employment contract with their home unit (Employer overseas) but are seconded to the local company that has a contract with Eskom to work under the direction and control of the local management. Their salaries are paid to the foreign specialist by their home country and that foreign entity then invoices the local supplier (South Africa) in foreign currency for the cost relating to such employees. The invoices would typically be in Euro or GBP, this methodology is usually for short to medium term engagements.

Documents to be attached for payment:

- Commercial invoice from the specialist company
- Local invoice (South African company making use of the specialist services)
- Passport of the specialist and valid work permit
- Activity schedule signed by the contract manager.

2) **Payroll Transfer**

In this approach, the employee's contract with the overseas employer will be suspended and the specialist takes up a local contract with the local company. The remuneration is then **ZAR** based, the overseas employer is unable to provide the foreign invoice because the employment with the specialist is suspended this methodology is usually favoured for long term engagement. There is no foreign commitment, and the contract will be in ZAR.
